

LED GLOBES

Low Voltage LED Globes are designed to replace your existing Halogen globes.

The benefits of using of LED's in place of Halogen are a reduction power consumption and also longer life (50,000 hours). The LED colour is a lot whiter making it an ideal upgrade for Park Lights and Number Plate globe replacement.

LV0800

12V

FEATURES:

- Base: BA9s
- Voltage: 12V DC
- LED's: 1 x 1W
- Colour: White 6000K

LV0801

24V

FEATURES:

- Base: BA9s
- Voltage: 24V DC
- LED's: 1 x 1W
- Colour: White 6000K

LV0802

12V

FEATURES:

- Base: T10 W2.1 x 9.5d
- Voltage: 12V DC
- LED's: 1 x 1W
- Colour: White 6000K

LV0803

24V

FEATURES:

- Base: T10 W2.1 x 9.5d
- Voltage: 24V DC
- LED's: 1 x 1W
- Colour: White 6000K
